### Technical characteristics

- ▶ 1 35-mm diameter tubular motor
- ▶ 1 head adapter for guiding the tube of the rolling shutters
- ▶ 1 ring for connecting to the rolling shutters
- ▶ 1 mounting bracket for the tubular motor
- ▶ 1 snap ring + 1 pin
- ▶ 1 868.3MHz electronic management module, 150m range
- ▶ 1 remote control with CR2032 3V battery (included)

### Features

- ▶ This easy-to-install kit will allow you to add motor control to a roller shutter or blind fitted with a 40mm octagonal tube. With its built-in radio module, you can control the mechanism via the supplied remote control or via a smartphone or tablet. Suitable for use with shutters up to a maximum weight of 20kg and maximum size of 3.5m<sup>2</sup>. For blinds, the maximum recommended length is 2m. You can then program your shutters to be opened and closed via **Thombox** scenes (opening when smoke is detected, simulated occupancy, closing in the event an intrusion attempt, etc.).
