Ref. 500020

Gencod 3660215000201

Technical characteristics

- ▶ Radio frequency : 868.3MHz
- ▶ Power supply : 12Vdc/ac or 24Vdc/ac
- ▶ 2 wired outputs to connect to the opener to be fitted
- ▶ 1 wired sensor input for state feedback

Features

- ▶ This motor control receiver allows you to activate any motorised gate or garage door mechanism from an additional remote control or from your smartphone or tablet, without affecting compatibility with the original remote controls. When connected to your **Thombox** using the ARW radio protocol, you can then include motor control in any scene of your choice. For example, automatically open your gate as you switch on your alarm when leaving your home.
