

Remote-controlled socket with remote control

For indoor lighting

Comfort

Ref. 500101

Gencod 3660215001017

Technical characteristics

- ▶ 1 remote-controlled 230Vac-50Hz socket
- ▶ Max power per socket : 2000W (9A)
- ▶ 1 12-channel remote control
- ▶ The remote control operates with 1 CR2032 3V battery (included)
- ▶ Open air range : 150m
- ▶ System on indicator light
- ▶ Radio frequency : 868.3MHz
- ▶ The socket and the remote control are for indoor use only

Features

- ▶ This extremely easy-to-install plug can be plugged into any socket of your choice, allowing you to control any electrical appliance rated less than 2000W (heater, lamp, home cinema appliances, etc) either locally and/or remotely. You can therefore switch your appliances on or off from the 12-channel remote control supplied or from your smartphone or tablet, or integrate it into your THOMbox scenes (time scheduling, simulated occupancy, etc.). You can then, for example, put all your appliances in standby when you leave your home, thereby making substantial savings on your electricity. In total, the device's remote control will allow you to control 11 other THOMbox accessories individually (a total of up to 12 groups of 5 accessories controlled simultaneously)
