

## Remote-controlled sockets with remote control

For indoor lighting

Comfort

Ref. 500105

Gencod 3660215001055

### Technical characteristics

- ▶ 3 remote-controlled 230Vac-50Hz sockets
- ▶ Max power per socket : 2000W (9A)
- ▶ 1 12-channel remote control
- ▶ The remote control operates with 1 CR2032 3V battery (included)
- ▶ Open air range : 150m
- ▶ System on indicator light
- ▶ Radio frequency : 868.3MHz
- ▶ The sockets and the remote control are for indoor use only

### Features

- ▶ This extremely easy-to-install plug can be plugged into any socket of your choice, allowing you to control up to 3 electrical appliances individually rated less than 2000W (heater, lamp, home cinema appliances, etc.) either locally and/or remotely. You can therefore switch your appliances on or off from the 12-channel remote control supplied or from your smartphone or tablet, or integrate them into your **Thombox** scenes (time scheduling, simulated occupancy, etc.). You can then, for example, put all your appliances in standby when you leave your house, thereby making substantial savings on your electricity. In total, the device's remote control will allow you to control 9 other **Thombox** accessories individually (a total of up to 12 groups of 5 accessories controlled simultaneously).
