Ref. 500106

Gencod 3660215001062

Technical characteristics

- ▶ 1 remote-controlled 230Vac-50Hz socket
- ▶ Max power per socket : 2000W (9A)
- ▶ Open air range : 150m
- ▶ System on indicator light
- ▶ Radio frequency : 868.3MHz
- ▶ For outdoor use, protection against water (IP44)

Features

- ▶ This extremely easy-to-install plug can be plugged into any outdoor socket of your choice, allowing you to control any electrical appliance rated less than 2000W (outdoor lighting, electric barbecue, flat-top grills, etc) either locally and/or remotely. You can therefore switch your appliances on or off via an optional remote control, from your smartphone or tablet, or incorporate it into your **Thombox** scenes (time scheduling, simulated occupancy, etc.). You can then trigger outdoor lighting to come on, for example, when movement is detected. With an IP44 protection rating, the plug is completely suitable for all of these uses
