### Technical characteristics

- ▶ 1 remote-controlled 230Vac-50Hz wired switch with built-in radio receiver
- ▶ Power : incandescent bulb: 300W maximum, halogen : 100W max, LED/compact fluorescent bulb/fluorescent tube : 5 to 500W, low voltage : 1A maximum
- ▶ Open air range : 150m
- ▶ Radio frequency : 868.3MHz
- ▶ The remote-controlled wired switch is for indoor use only
- ▶ This product is connected in series with the lighting to be operated. It does not need to be connected to the phase.

### Features

- ▶ Simply hooks up to the live connection and replaces a conventional switch, allowing you to remotely control any lighting fixture with a maximum power rating of 300W. You can then control your lights locally with an optional remote control, or remotely via your smartphone or tablet. You may also incorporate it into scenes from your **Thombox**, e.g. to automatically switch on the lighting when a motion detector is triggered.
