Ref. 500133

Gencod 3660215001338

### Technical characteristics

- ▶ 1 built-in remote-controlled 230Vac-50Hz micro module receiver
- ▶ Phase + neutral connection
- ▶ Open air range : 150m
- ▶ Power : incandescent bulb : 300W maximum, halogen: 100W max, LED/compact fluorescent bulb/fluorescent tube: 5 to 500W, low voltage: 1A maximum.
- ▶ 1 built-in micro module transmitter
- ▶ Power supplied by a CR2032 battery, included
- ▶ Radio frequency : 868.3MHz
- ▶ The transmitter module needs no other power supply in addition to the battery provided: the device's switch is disconnected from the mains
- ▶ The micro modules are for indoor use only

### Features

- ▶ Transforms a two-way switch into a wireless control device for receivers from the «Thomson Connected Home» range. You can therefore control your lights locally using the optional remote control, or remotely via your smartphone and tablet. You may also incorporate it into your **Thombox** scenes, e.g. to automatically trigger lights to come on when a motion detector is triggered. You may also continue to use your original switches.
