### Technical characteristics

- ▶ 1 infra-red wireless motion detector
- ▶ Installation mounts included
- ▶ Angle of detection : 90°
- ▶ Detection range : 15m
- ▶ Operates with 1 CR123A lithium battery (included)
- ▶ Battery life : up to 4 years with non-intensive use
- ▶ Radio frequency : 868.3MHz
- ▶ Open air range : 300m
- ▶ This motion detector is for indoor use only

### Features

- ▶ This high-performance detector works via infrared, detecting any movement of human beings within the room where it is installed. It sends the information to your **Thombox**, which triggers the alarm. Able to distinguish between human beings and pets (cats, dogs, etc), thereby avoiding false alarms caused by pets of up to 25kg running past. This extremely easy-to-use detector has a range of 300m, with simple, wireless installation. You can also use it to trigger lighting in a passageway such as a hall or landing and set a timer as required via your **Thombox**, thereby saving on your electricity.
