Ref. 510724

Gencod 3660215107245

Technical characteristics

- ▶ Carbon monoxide detection using an electrochemical sensor
- ▶ Built-in siren with a sound power level of 85 dBa at 1 metre
- ▶ Lifespan : 7 years
- ▶ Radio frequency: 868.3MHz
- ▶ Power supply : 3V from 2 AA non-replaceable lithium batteries (included)
- ▶ Automatic battery monitoring and, in the case of a defect, a warning sound is emitted
- ▶ Test button for functional checks
- ▶ Easy installation, mounting kit provided (plugs and screws)
- ▶ Dimensions : 105 x 65 x 29 mm (including mount)
- ▶ Operating temperature : -10° C to + 40° C

Features

- ▶ In response to the large number of incidences of carbon monoxide poisoning that occur in France, this high-quality detector is made in France and EN50291 approved. It will detect if any emissions of this deadly colourless, odourless gas and sound the unit's standalone 85dB alarm, allowing occupants to evacuate the premises. An alert will also be sent to the **Thombox**, which will launch the scene of your choice (sending smartphone alerts, switching on lights, setting off alarm signals etc.). This model has the same specifications as the professional duty detectors required in public places. Its approval rating and 7-year battery life make it one of the best performing models on the market.
