## Technical specifications

- ▶ 1 wired IP colour camera
- ▶ 1 230Vac 50Hz / 12Vdc 1A adaptor
- ▶ 1 RJ45 cable (1m)
- ▶ 1 extension lead for mains adaptor
- ▶ 1 aluminium directional mount for fitting to a wall or ceiling
- ▶ 1 high definition colour image sensor
- ▶ 1 integrated microphone for audio acquisition
- ▶ 1 automatic image and luminosity correction system
- ▶ 1 slot for micro SDHC card, maximum size 16GB
- ▶ 1 12Vdc 1A power socket supplied
- ▶ Video resolution : 1280 x 800
- ▶ Compression : H.264

## Features

- ▶ The camera is simply plugged into a power supply and has a motion detection system and night vision to warn you of the slightest movement outside your home. This enables you to carry out a visual check when you receive an alert. You can also check it whenever you want to, e.g. to check whether you closed the gate properly or that your children are playing safely. It can be used with your **Thombox** as part of a setup of your choosing, but it can also be used independently with its free smartphone/tablet app. It has 720 line HD resolution to ensure high image quality.
