Réf. 516108

Gencod 3660215161087

Technical characteristics

- ▶ 1 operating module for boilers
- ▶ Surface-mount installation
- ▶ Power supply : 230Vac 50Hz
- ▶ Max power for the boiler's input contact : 3680W (16A)
- ▶ Radio frequency : 868.3MHz
- ▶ Open air range : 150m

Features

- ▶ Switch your electric boiler on and off under wireless control. Simply connects up next to your boiler. Once associated with your **Thombox**, you can then control your boiler remotely via your smartphone and tablet, and include it in your scenes. Install it in a second home, for example, and switch on your boiler a few hours before you arrive to enjoy a nice warm house when you get there.
