### Technical characteristics

- ▶ 1 clamp ammeter
- ▶ Open air range of 150m
- ▶ Frequency : 868.3MHz
- ▶ Power supplied by a CR123A battery (included), 1-year battery life
- ▶ Transmission interval : 32 s
- ▶ Measurement interval : 4 s
- ▶ Voltage range (in the sensor) : 110V – 400V
- ▶ Measurement current : 40mA – 16A
- ▶ Accuracy: from 40mA to 1A : < 10% / from 1A to 16A : < 5%

### Features

- ▶ Simply place over the electricity cable between your electricity meter and junction box and a live current reading for your home will be measured and transmitted to your **Thombox** at regular intervals. **Thombox** will use this to derive and keep a log of your electricity usage. All of the information collected can be easily used to help you better understand and control your electricity spending.
