Ref. 517046

Gencod 3660215170461

Technical characteristics

- ▶ 1 radio transmitter
- ▶ Operates with one CR123A lithium battery (included)
- ▶ Radio frequency : 868.3MHz
- ▶ Open air range of 150m

- ▶ One rain sensor
- ▶ Power supplied by a 12V mains adapter (included)
- ▶ Power of the built-in heating element : 4W
- ▶ Power on and initiation indicator lights

Features

- ▶ With the ability to instantly detect rain or snow, this sensor, when installed in a convenient place and paired with your **Thombox**, will provide you with a warning when any rain/snow is detected. The rain sensor incorporates a heating resistor that automatically dries the surface of the sensor once precipitation is detected, avoiding unwanted alerts e.g. after watering your garden or in foggy weather. You can of course include the sensor in your **Thombox** scenes, e.g. making it fold up your blind during bad weather.
